German	Limited

LANGUAGE	PROFICIENCY
Python	Working
JS*, HTML, CSS	Working
Java	Rusty
C++	Limited

\*Includes basic (non-extensive) knowledge of React, GraphQL, static site generators, Node.js, npm, Electron and (maybe) more

## IN A NUTSHELL

Self-taught web designer, amateur graphic designer, etc.  
**Learning student** above all.

Born in Boston, raised by Swiss parents. Fascinated by the concept of a computer and especially software since I was young. Also interested in graphic design and typography.

Today I like to mix both design and technology into what I do—you can't have the function without the form!

I have moderate experience with coding, frontend web design and development, as well as basic knowledge of 3D modeling and rendering, and 2D animation.

## Past Work

see attached **portfolio** for images

<b>Market 2day</b> <a href="http://market2dayapp.com">market2dayapp.com</a>	Proposed a detailed application redesign for the Boston-based startup Market 2day.
<b>Masks for Hunger</b> <a href="http://masksforhunger.com">masksforhunger.com</a>	Built a website + set up CMS backend for a project to help fight hunger during COVID
<b>Amuni Coaching</b> <a href="http://amuni-coaching.com">amuni-coaching.com</a>	Built a website + set up CMS backend for an adolescent coach.
<b>Organizer</b> <a href="http://organize.julianmarmier.com">organize.julianmarmier.com</a>	Created an Electron app that organizes files in a simple and fast manner (work in progress)

## Education

HIGH SCHOOL	2017	<b>International School of Boston</b>	Year 9
	2017-2020	<b>Lexington High School</b>	Years 10-12
UNIVERSITY	2020-2021	<b>EPFL</b>	Cours de mathématiques spéciales
	2021-	<b>EPFL, prospective</b>	Informatique / Computer Science
